

Spring Roller Shades

Installation Instructions

IMPORTANT: To prevent accidental damage to fabric, **DO NOT** open or cut the packaging around your shade with a utility knife or razor blade.

MOUNTING BRACKET CONFIGURATION

STANDARD SHADE INSTRUCTIONS

1) Mount the Wall Brackets

The mounting brackets for standard roller shades are universal and are suitable for side, top or wall mounting. Make sure that the brackets are perfectly level with each other.

For an **INSIDE MOUNT** allow 1/2" clearance between the top of the frame and the top of the fully rolled shade.

Always allow a small amount of play between the brackets and the roller ends to ensure proper roller function.

2) Install the Shade into the Brackets

Slide the end with the flat pin into the the left bracket (Diagram A) and then fit the end with the round pin into the right bracket (Diagram B).

REVERSE ROLL SHADE INSTRUCTIONS

1) Mount the Wall Brackets

Brackets for Reverse Roll Shades

The mounting brackets for REVERSE roller shades are suitable for side, top or wall mounting. Make sure that the brackets are perfectly level with each other.

For an INSIDE MOUNT allow 1/2" clearance between the top of the frame and the top of the fully rolled shade.

Always allow a small amount of play between the brackets and the roller ends to ensure proper roller function.

2) Install the Shade into the Brackets

Slide the end with the round pin into the the left bracket (Diagram A) and then fit the end with the flat pin into the bottom of the right bracket (Diagram B). Close the swing arm to secure.

OPERATING INSTRUCTIONS - STANDARD OR REVERSE ROLL

If this shade does not roll straight, correct as follows:

Make sure brackets are mounted level, or the shade will not roll straight.

If shade veers toward the right, correct by lowering shade completely and placing a piece of tape (multiple pieces may be necessary) as close to the left edge of the roller as possible. It will act as a shim.

If shade veers toward the left, correct by lowering shade completely and placing a piece of tape (multiple pieces may be necessary) as close to the right edge of the roller as possible. It will act as a shim.
