MOTORIZED SYSTEMS
REPEATER
QUICK START GUIDE
1. Plug USB power adapter into a power outlet.

Only use Otto Home Control USB power adapters with USB Repeater. Using other power adapters/power sources may adversely affect USB Repeater performance and should be avoided.

2. Plug the USB Repeater into the USB power adapter. A blue LED on the USB Repeater will be visible when the power is switched on.

USB Repeater is plug and play. No setup required.

3. Press any button on the Otto remote control.
   The blue light on the USB Repeater will flash 3 times.
   This means the USB Repeater is transmitting the signal.

IMPORTANT: Maximum of 2 USB Repeaters can be used in one project.
Don’t cover the USB Repeater with a metal shield.
INSTALLATION RANGE

The USB Repeater can extend the RF range of operation for ARC-enabled products by up to 131ft.

NOTE: RF source can be Otto WiFi Bridge or any Otto Remote Control or Sensor.

Statement Regarding FCC Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

Do not dispose of in general waste.
Please recycle batteries and damaged electrical products appropriately.
